The decision to close a centre is made on the basis of our inability to maintain safe staffing levels. As such we can redeploy staff from centres which are closed to nearby centres that remain open, to allow us to maximize our capability to provide a service and manage patients' safely. We regret the inconvenience to those who will attend a collection centre that has closed and would appreciate your assistance in informing your patients. We have updated our website to reflect these closures.

The situation is rapidly changing and we will keep you updated as changes occur. Please refer to our website ([www.labtests.co.nz](http://www.labtests.co.nz)). All updates will be posted to our Covid-19 Update page found under 'For Referrers, or follow this link: <https://www.labtests.co.nz/for-referrers/covid-19-coronavirus-updates/>
