
Covid-19 Update

18 March 2020

**Published by Auckland, Counties Manukau and Waitematā DHBs
on 17/03/2020 1:34:03 PM.**

Please see the links below to updated COVID-19 resources for general practice:

- * A revised Health Professional Advisory reflecting the latest changes to the national case definition.
- * An updated algorithm also reflecting case definition changes. Please note the change to taking only a nasopharyngeal swab.
- * A door poster for practices. Please note this document is provided in a format allowing practices to add in their individual phone numbers.
- * Instructions on taking a nasopharyngeal swab.

Further advice on Primary Options for Acute Care (POAC) will be published soon via Medinz.
